PRESENTS

PANTHEON

OCT 26,27

INTRODUCTION

PANTHEON -18 IS ALL SET TO RUN AN EXTRA MILE BY WORKING ALONG with Indian railway to allow engineers to forge ahead on the path of sustainable development. With a mission to bring engineers to forefront of sustainable development, pantheon seeks to build the momentum to work together towards a green future. Through this workshop we intend to make the students aware of the need for being socially responsible engineers by advocating the principle of sustainable development

The workshop will give an insight about the measures and the course of action for implementation of sustainable practices. As sustainability has a pivotal role to play in the future of engineering, the knowledge on the subject will prove to be indispensable for civil engineer in making.
